Graphing Success Criteria

I have ......

Success Criteria	Yes/No
Written a title for the graph	Y
Labelled the y axis properly	Y
Labelled the x axis properly	Y
I have labelled the axes with x and y	Y
Put arrows on the x and y axis to indicate that they continue	Y
Have started my scale at zero	Y
Have chosen an interval appropriate to the pattern and graph size	?
I have located each position number on a vertical line	Y
I have located each number of tiles on a horizontal line	Y
I have plotted each point, with a dot, on intersecting lines	Y
I have joined each dot to make a line	Y
I have put an arrow on the end of my linear relation to indicate that it keeps growing	Y
I have used a ruler	Y
I have labelled my linear relationship with its rule	Y
I have written the rule in algebraic format	Y
I have circled and labelled the initial value	Y
